

# We're seeking your feedback on the Greenpoint Vaporizer Project

nationalgrid

We've been working hard to identify additional ways we can safely and reliably meet our region's energy needs today while transitioning to a cleaner delivery system for the future.

Recently, we filed a report with the New York State Public Service Commission (NYPSC) initiating the process for an independent assessment of proposed enhancements to our Greenpoint Energy Center. This project will help us ensure reliable service for our Brooklyn, New York, customers over the next several years. To learn more about the report and our proposed enhancements, please visit <https://documents.dps.ny.gov/public/MatterManagement/CaseMaster.aspx?MatterCaseNo=19-g-0309&CaseSearch=Search> or scan the QR code to the right.

**The NYPSC will be holding public statement hearings to gain customer feedback on this project. The first hour of these sessions will provide information on the project followed by a public statement hearing.**

## Virtual information and public statement hearings:
